DETAILED ACTION

Specification

The objection to the specification because it did not include a Brief Description of the Drawings, maintained in the previous Office Action, has been overcome by applicant's amendment. The amendment includes such a description.

112 Rejections Withdrawn

The rejection of claims 13-17 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment clarifies the claim text as suggested by the examiner.

Allowable Subject Matter

Claims 1-5, 9-17 and 20 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record (US 6,034,029; US 5,037,793 and US 5,015,788). As outlined in the previous Office Action, applicant's amendments and arguments had been carefully considered and were persuasive.

The prior art neither teaches nor suggests the instant process. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the processes of the prior art in order to arrive at that of the instant invention. There is no motivation to do so.
